PREFACE.

THE intention which guided the subscriber in compiling this Index, was to prepare a key for obtaining from the records in the Register's Office such information as might be gained from examination of maps of property in the City of New-York, and the documents referring to these maps, on file or recorded in said office.

The Index of Maps compiled by the subscriber, describing several thousand maps, covering almost every square foot of ground on Manhattan Island, pointing to thousands of documents concerning real estate in all parts of the city, will prove very useful to all in quest of information in regard to real estate.

This first part of the Index contains the description of nearly 1400 maps on file, under certain numbers, in the Map Room of the Register's Office. Of some large estates, there are several maps filed under the same principal number, but distinguished by certain marks or figures: T, 1, 2, 3, etc., or a, b, c, etc. The names appearing with the description are, in most cases, the names of owners at the time of survey of the property; in some cases, the names of owners at the time of filing.

ADOLF DENGLER.

NEW-YORK, May, 1875.
